PROFILE

To secure a full-time position that presents professional challenges while utilizing strong interpersonal and problem-solving skills. A patient and organized candidate, capable of managing multiple priorities with a positive attitude. Committed to taking responsibility and contributing effectively to team goals, ensuring a collaborative and productive work environment.

PROFESSIONAL EXPERIENCE

Flutter Developer

Menthee Technologies

04/2024 – present
chennai, India

A Flutter developer with experience from April 2024 to the present, proficient in building cross-platform mobile applications using the latest Flutter framework and Dart programming language. Expertise includes creating responsive user interfaces, managing state with Provider and Riverpod, and ensuring optimal performance across both iOS and Android platforms. Strong skills in integrating third-party APIs, optimizing application performance, and adhering to best practices for clean, maintainable code. Committed to delivering high-quality, user-friendly applications that meet client requirements and industry standards.

PROJECTS

ECommerce Application using Flutter, Riverpod

The application leverages Flutter to deliver a smooth and visually appealing user interface that is consistent across both iOS and Android platforms. Utilizing Riverpod for efficient state management enables responsive and dynamic updates to the user interface without compromising performance, ensuring a seamless shopping experience for users.

Rental management Using Flutter, Riverpod

Developed a rental management app using Flutter and Riverpod, featuring responsive user interfaces and efficient state management. Integrated third-party APIs for payment processing and tenant management, ensuring smooth performance across both iOS and Android platforms.

Loan Collection App Using Flutter, Riverpod

Expertly managed application state using Riverpod for efficient and scalable state management. Integrated multiple third-party APIs to streamline payment tracking and enhance loan management functionality. Ensured robust performance and reliability through rigorous testing and optimization practices.
